

GPI DAM PUMP

FULL PASTURE
IRRIGATION
WHEN YOU
DON'T HAVE
MAINS POWER

Integrated shut off system turns off the dam pump engine when the GreenPro irrigator has finished its run. Added Towing Capability with the 50mm ball hitch. Lightweight construction allows you to transport the pump between creeks and dams easily. Water pressure where you need on your property when

mains power is not available near your dam or creek water supply. Years of reliable operation constructed with hard powder coated steel framework and stainless steel reel shafts. Designed, fabricated and built in Australia mean your trailer will work hard for years without corrosion or damage from the elements.
