Australia's Leading Manufacturer of Innovative Solutions

Australia's largest builder of specialised vehicles and customer service bodies for multiple industries. We are also an innovator in spray and customised equipment used to treat noxious weeds. Our customers include Government departments, contractors, and farmers in Australia, the United States, Canada, and New Zealand. In addition, we produce agricultural equipment for small farms, further expanding our reach into diverse markets.

Event Timeline

1985
Quik Spray is invented by a weed spraying contractor with increased productivity and ease of operation in mind.

1991
Quik Spray weed spraying system starts being sold commercially to councils, farmers and contractors.

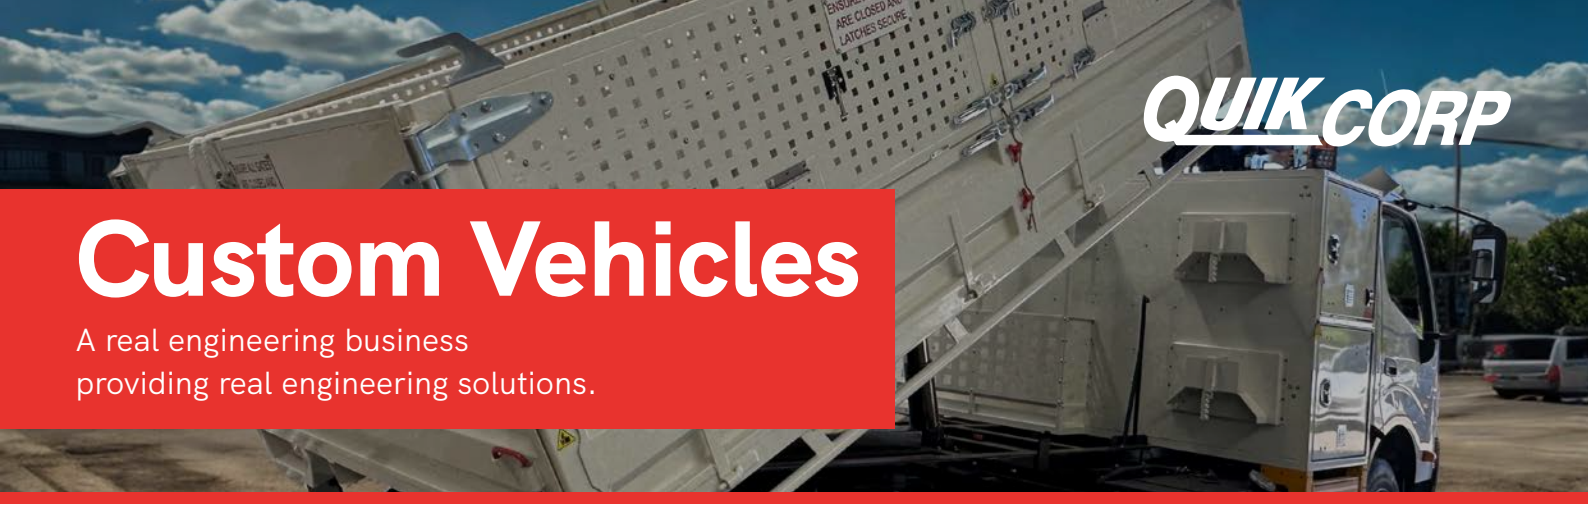
2005
Quik Corp Fire is born, and a suite of products are developed due to an overwhelming demand from our customer base.

2011
Quik Corp diversifies its capabilities to include industrial/commercial vehicle builds and award-winning innovations.

2014
Quik Corp wins a 30 million plus contract in Victoria and opens a new factory

2016
Quik Corp is the winner of the Telstra Business Awards, Business of the Year.

2022
Quik Corp opens a new 9500sqm purpose-built facility in Coolum QLD, facilitating an increase in production, research and development.



Custom Vehicles

A real engineering business
providing real engineering solutions.

TIPPER BODY

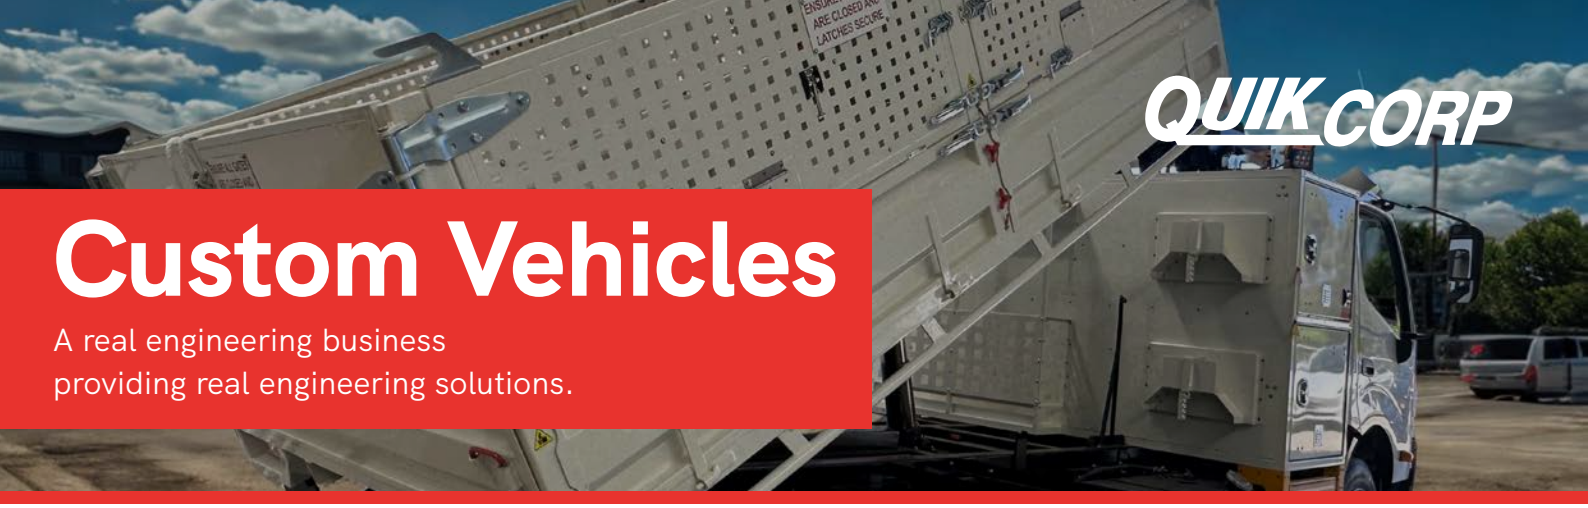
Built for moving and unloading bulk materials like soil, gravel and waste across industries such as construction, landscaping, mining and farming. We work with each customer to design and build a customised tipper body that meets their specific needs, ensuring durability, efficiency and reliability.

LUBE TRUCK

Designed to keep machinery and fleets running smoothly, our lube trucks deliver on-site servicing across industries. We work with each customer to configure a unit that meets their specific needs, ensuring efficiency, reliability and ease of operation.

SPRAYING VEHICLE

Quik Corp provide turnkey spray solutions and equipment to suit your spraying needs with a bespoke mindset. We work alongside you, to design customised vehicle integrated systems which align to your operational objectives.



Custom Vehicles

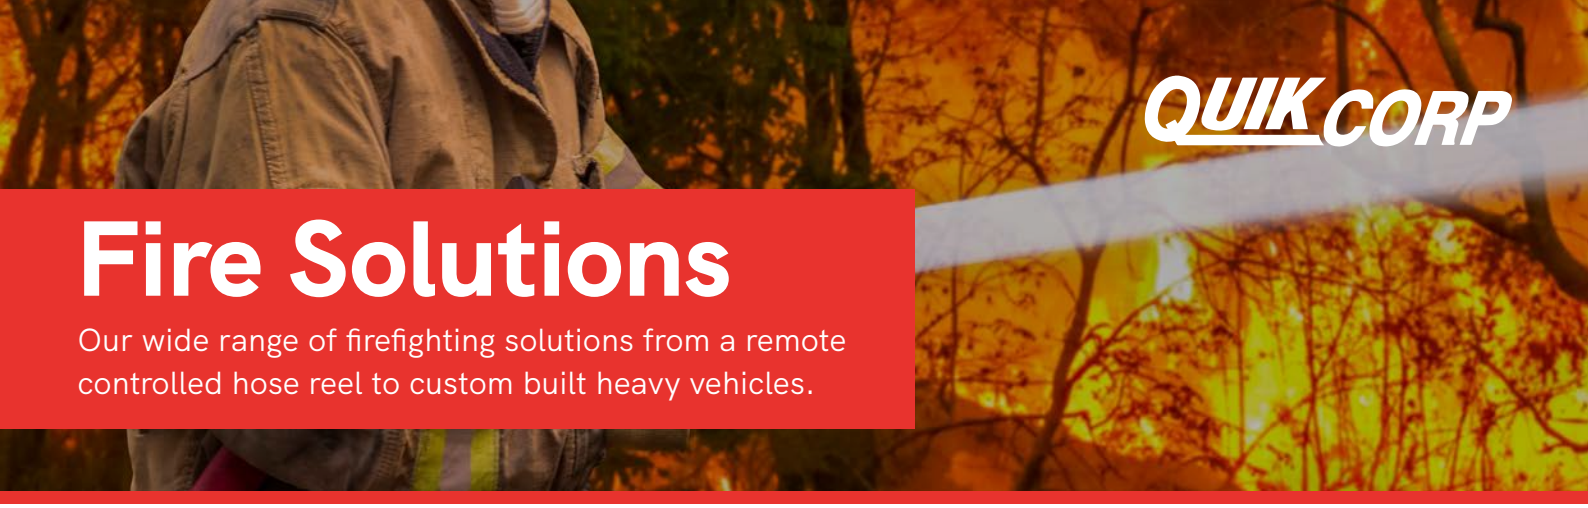
A real engineering business
providing real engineering solutions.

SERVICE BODY

Provides secure, organised storage for tools, parts and equipment, making it ideal for trades, maintenance and field service work. We collaborate with each customer to design a customised service body that suits their operation.

HIGH PRESSURE WASHER

Designed for fast, effective cleaning of machinery, vehicles and worksites across industries. We work with each customer to tailor a washer system to their requirements, ensuring reliable performance, durability and ease of use.



Fire Solutions

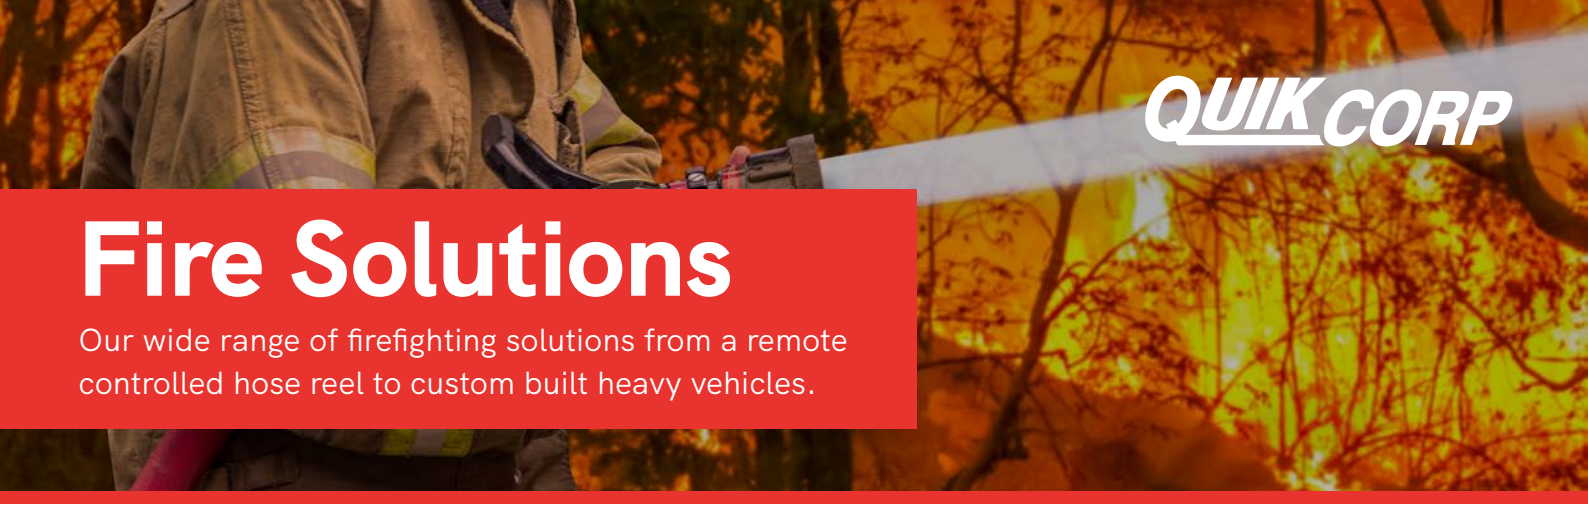
Our wide range of firefighting solutions from a remote controlled hose reel to custom built heavy vehicles.

FIRE HOSE REELS

Our range of firefighting reels give you the ability to transition from a manual fire hose reel, up to a remote-controlled self-guided reel.

UTV RANGE

Versatile solutions designed to meet your firefighting needs with precision.



Fire Solutions

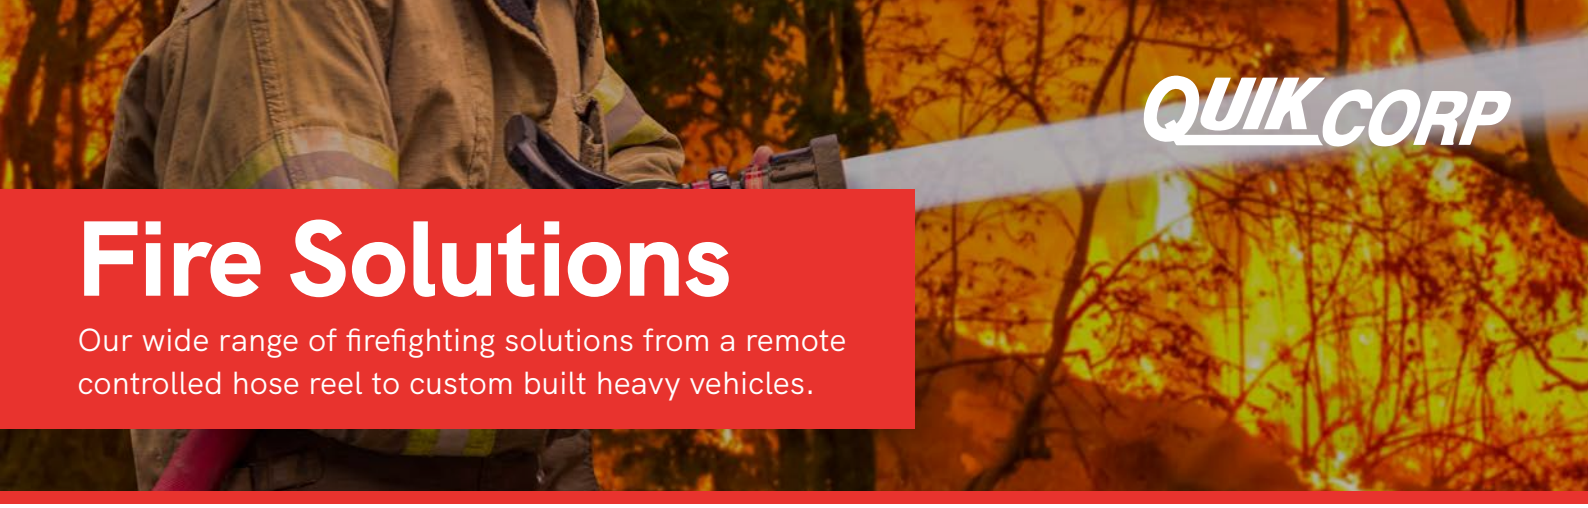
Our wide range of firefighting solutions from a remote controlled hose reel to custom built heavy vehicles.

MODULAR FIREFIGHTING UNITS

Compact and convenient, a slip-on unit is a platform that fits a ute or truck, encompassing a one-piece framework, tank and pump motor.

TRAILERS

Engineered for durability and performance, the Quik Corp range of trailers is specifically designed to endure the most demanding conditions, both on-road and off-road. Built to withstand harsh terrain, these trailers deliver reliable operation in even the toughest environments.



Fire Solutions

Our wide range of firefighting solutions from a remote controlled hose reel to custom built heavy vehicles.
